

# STREAMING RESOURCES

Free Options:

- Facebook Live from your phone
- You Tube (you need to verify your account so sign up today)

Moderate Expense Option:

**Mevo**

What you need to plan on:

1. Make a plan
  - Just a sermon?
  - A song or two?
2. Find a camera
  - Could be your phone
  - Mevo
  - Purchase a camera
3. Find a place
  - Your office
  - Living room
  - Find a place with a lot of natural light
  - Even as simple as putting a few lamps in front of you
  - You want to look into the light so that it's shining on your face
4. Look at the camera
  - This may feel a bit awkward, but it will communicate well
  - Imagine the faces of you people as you look in the camera
5. Aim for quality audio
  - The audio is just as important as the video
  - If you can, purchase an external mic (see links below).
6. Decide to capture music or not
  - This is more difficult.
  - If you do capture audio, keep the band as simple as possible (one or two people)

# HELPFUL LINKS

**Zoom Meeting**

**Planning Center**

**How to go live on facebook**

**\$79-Smartphone Lavalier:**

**\$20-Adapter:**

**\$20- Desktop phone holder**
